

Vertical Conveying Solutions

Nercon's [draper z incline conveyor](#) elevates and lowers varying shaped products consecutively with no need for time-consuming changeover adjustments. With no adjustments needed, it will lead to an increase in production output and efficiency in the production line. This elevation conveyor also gives safe access to hard-to-reach areas for personnel, fork trucks, and other moving equipment around the production floor.

FEATURES

- Made at fixed angles of 30, 45, and 60 degrees
- Reduced footprint
- No changeover needed

INDUSTRY SEGMENTS

- Snack Food & Bakery
- Packaged Foods
- Meat & Poultry
- Beverage
- Confectionery & Candy
- Dairy Food
- Produce
- Frozen Foods
- Health & Beauty
- Pharmaceuticals

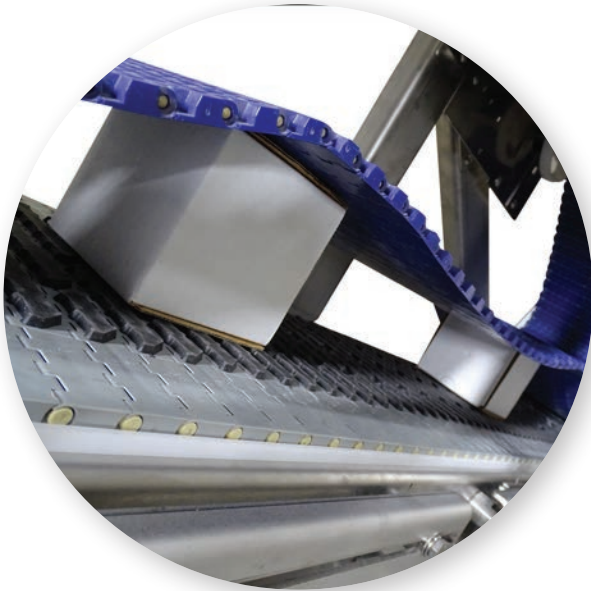

APPLICATION TYPES

- Bags
- Bottles
- Cans
- Cartons
- Cases
- Pouches
- Pucks
- Trays

Unique Draper Design Features

- The upper belt gently drapes over the product shape maintaining the integrity of orientation during an incline or decline to the next production stage
- Takes advantage of unused vertical space and contribute to a small footprint on the production floor
- Reduces the overall production line footprint by eliminating the need to design around traffic patterns
