

TableTop Conveyor

PROCore®
by  **NERCON**

Available in 3.25", 4.5", 7.5", and 12"
chain with open top frame design

Committed to Quality Conveyor

Nercon's [TableTop conveyor system](#) offers a versatile design, which makes it a popular conveyor system suited for a wide range of production environments. The flat top plates are stronger than modular belting and transport items through production more efficiently and safely. TableTop conveyors have excellent flexibility for production line layouts, being suitable for curves or changes in elevation, thus streamlining factory operations.

FEATURES

- Low friction values
- High resistance to wear
- Low noise level
- Wide chain applications
- Stronger chain configurations
- Easily integrate with existing systems

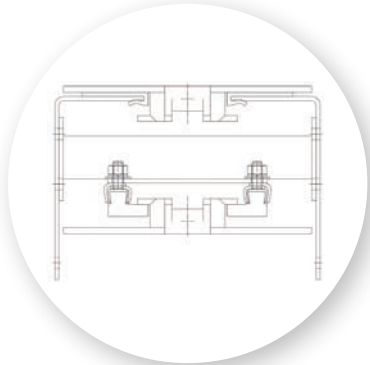

INDUSTRY SEGMENTS

- Snack Food & Bakery
- Packaged Foods
- Beverage
- Confectionery & Candy
- Dairy Food
- Produce
- Health & Beauty

APPLICATION TYPES

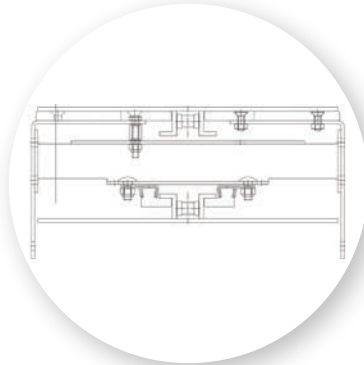

- Bottles
- Cans
- Cartons
- Cases
- Glass
- Pouches
- Pucks
- Trays

TableTop Design Options

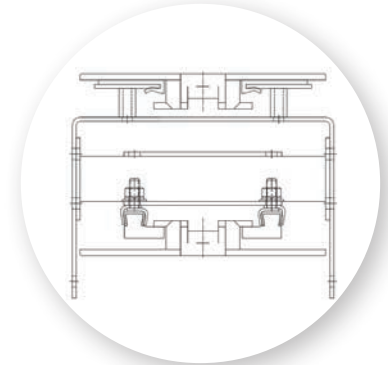

Open Top

The industry standard for industrial-duty TableTop conveyor features inverted "L" side frames to provide rigid support for chain and brackets.

Safety Design

12" wide safe design TableTop conveyor has a frame and wearstrip design that minimizes dangerous pinch-point areas, reducing safety incidents and downtime associated with pinch-point accidents.

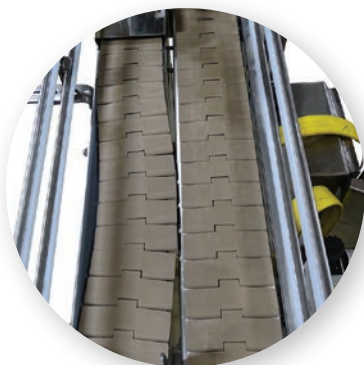

Closed Top

Intended for use on TableTop conveyors where ease of cleaning is required.

TableTop Transfer Designs

Inline Transfer

Chain Drift

Parallel Transfer
